PU foam liner specifications

Thickness: 50 mm with unique slope on the walkway side to drain fluids.

Length: 1700 mm

Width: 1000 mm

Installation: Simple and quick. Professional installation recommended.

Product Benefits

Increased comfort

Unparalleled comfort obtained by the combination of high density rubber and memory foam should please the most demanding cows.

Improved safety

An exclusive anti-skid and non-abrasive surface provides secure kneel down or stand up.

Improved hygiene

Animattress is easy to clean and does not absorb liquid or promote the development of bacteria. Moreover, its unique slope drains fluid toward the walkway.

Improved heat detection

Comfort and improved safety promotes the natural behaviour of an animal in heat.

Increased profits

Most dairymen agree that cow comfort maximizes milking and profits.
