

A NORTH WEST RUBBER COMPANY

# TRANSITION

## DIN CLASS I CALF MAT

### SPECIFICATIONS:

**Thickness:** 3/4" (19 mm)

**Length:** 72" (1.83 m)

**Width:** 48" (1.22 m)

**Weight:** 4.17 lbs/ft<sup>2</sup>. (20.36 kg/m<sup>2</sup>)

#### DURABILITY

Heavy-duty, vulcanized rubber construction engineered and tested to meet the dryness and comfort requirements of DIN 3763 class I for young calves.

#### COMFORT

Unique underside grooves provides enhanced cushioning to support calf growth and enhance weight gain while reducing noise and stress for the animal.

#### SLIP RESISTANCE

Pebble surface texture helps minimize the risk of slips and falls, reducing the number of injuries and animal losses.

#### INSULATION

Dense rubber construction minimizes heat loss which is especially important for young calves that are more susceptible to temperature fluctuations.

#### HYGIENIC

Precision, waterjet cut slats provide faster drainage to keep calves cleaner and drier.

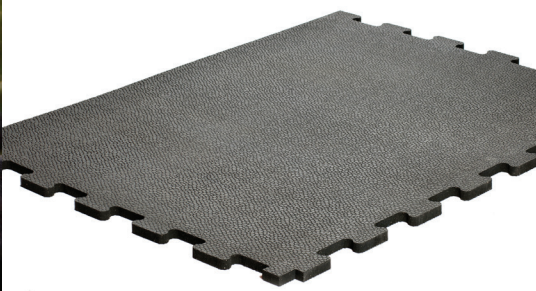

#### VERSATILE

Available in straight-edge or interlocking formats for use in a variety of calf housing areas including individual pens, group housing, and transition spaces. Ideal for both new construction and retrofit.

#### EASY INSTALLATION

Easy-to-handle 1.22 m x 1.83 m mats secured with Animat's exclusive Slat Lock anchoring system for fast and easy installation.

### Founded in 1983

Animat specializes in manufacturing recycled rubber matting and mattress solutions for livestock comfort.

### Over 168 Million Square Feet

Animat has installed more than 168 million square feet of animal welfare improvement rubber matting products across more than 25,000 commercial agriculture facilities since 1983.
